

Expert Care & Support for Every Niagara County Family

*No one has to face
a terminal illness alone.*

A family member shares his
Niagara Hospice experience:

If a terminal illness is
affecting a family's quality
of life, anyone can call
716-HOSPICE to make a
referral or learn about
patient and family services
and eligibility.

An admissions nurse will respond the
same day with a consultation.

“*Niagara Hospice is an Angel. When my
wife was starting to suffer, we called and
a nurse came out the same day. I had
great confidence in the care she was
going to get, because I witnessed it from
the beginning.*

*When you have an Angel, everything is
taken care of. We were made a priority
with the care, love and concern we
received. Whenever I called, even in the
middle of the night, they helped with
her pain and always took care of the
situation.*

*They answered my prayer to keep my
wife at home when she passed. Niagara
Hospice, I salute you. On behalf of my
wife, thank you!*”

– Robert, Niagara Falls
