Hospice at Jeanne’s House – A Northgate and Niagara Hospice Collaboration enables a concentration of hospice services to be provided in one setting for individuals who are not able to remain in their own home. Hospice is a way of caring for residents with end-of-life illnesses and supporting their family and loved ones through the illness and dying process.

**A UNIQUE LEVEL OF CARE**

Hospice at Jeanne’s House has been designed with the needs of residents and their families in mind. It includes beautifully decorated private and semi-private rooms, comfortable room furnishings, a lounge with access to an enclosed and furnished outdoor courtyard, a private sitting room and gathering areas for family members and visitors.

**WHAT MAKES JEANNE’S HOUSE DIFFERENT**

The collaboration between Northgate and Niagara Hospice is the first of its kind in New York State and has become a model for similar collaborations.

Our goal is to bring comfort to residents and peace of mind to their families through enhanced services such as:

- Increased nursing and social work visits
- Consultations with specialists in pain and symptom management
- Spiritual care visits
- Massage therapy
- Activities programs
- Pet and music visits
- Video visits with out-of-town family & friends
- Legacy Video coordination
- Volunteer companionship
- Vigil services
- Grief support for adults and children

**PROGRESSIVE CARE**

Medical services include:

- 24-hour skilled nursing care
- IV therapy for pain & symptom management
- Pharmacy consultations
- Oxygen therapy
- Specialized services, as needed

Hospice is specialized care for the terminally ill. In most cases, hospice services are covered by Medicare. Fees associated with room and board and/or services provided for care of the resident’s unrelated terminal diagnosis will be charged.

“Serenity is not freedom from the storm but peace amid the storm.”

Hospice at Jeanne’s House -
A Northgate and Niagara Hospice Collaboration is a program devoted to meeting the physical, emotional and spiritual needs of terminally ill residents requiring both 24-hour skilled nursing care and the unique services that only Niagara Hospice can provide.

As a center of excellence for hospice care in nursing homes, the staff has been specifically trained to meet the requirements for providing this specialized level of care.

Through this collaboration, our unit is dedicated entirely to Northgate residents receiving hospice care.
